ERRATUM

The June 28, 2010 decision to the above captioned appeal omitted identifying claim 8 as being reversed under the “OPINION” heading on page 4, the “CONCLUSIONS” heading on page 7, and the “DECISION” heading on page 8.

The original decision has been corrected to read –

On page 4: “The Examiner has failed to meet the initial burden of setting forth a basis for the obviousness rejection of claims 1-5, 7-9, 30, and 31. These claims are directed to methods of thermally processing a substrate in a reactor. The Examiner’s obviousness rejection fails to point out where Ballance, Anderson, Moslehi ’499, and Moslehi ’538 describe each limitation of claims 1-5, 7-9, 30, and 31. Ans., *passim*. Moreover, the Examiner’s rejection fails to cogently explain how the disclosed structure within the combined teachings of Ballance, Anderson, Moslehi ’499, and Moslehi ’538 would perform the claimed steps within claims 1-5, 7-9, 30, and 31. Thus, the Examiner has failed to meet the initial burden requisite for a conclusion of obviousness for the claimed subject matter within claims 1-5, 7-9, 30, and 31.”

On page 7: “The Examiner has failed to meet the burden requisite for a conclusion of obviousness for the claimed subject matter within claims 1-5, 7-9, 13-15, and 30-32.”

On page 8: “The Examiner’s decision to reject claims 1-5, 7-9, 13-15, and 30-32 is reversed.”

All other portions of the June 28, 2010 decision remain unchanged. Any timelines prescribed by the original June 28, 2010 decision remain unchanged. If there are any questions pertaining to this erratum, please contact the Board of Patent Appeals and Interferences at 571-272-9797.
